In continuation of para. 3 of my letter C.7981/21-A-7 dated 30-12-21 I submit the following report regarding the collection of suspended revenue of 2040-6-1 of Fasli 1330 in the four villages of the Hadagalli Taluk. The amount was ordered to be collected this fasli in C.C. No. 642 Misc., -

para 3, p 3 ✗ ✗ (M).

(M)

dated 15-3-21. The crop history of these villages during the current and previous year is detailed below.-

Hulikatti-

This village has got a tank. On account of scanty rainfall in the previous year, it did not receive any supply and consequently the salpaddy and korra sown in its ayacut entirely failed. Ragi and cholam crops also yielded a poor outturn of 4 annas only. The rainfall in the current year is noted in the margin. Owing to the failure of early rains, the mungari crops did not thrive well and the late rains were of little use to them. The yield is estimated from 4 to 6 annas. The tank also did not receive adequate supply to enable ryots to raise any wet crop.

Halthimmapuram.-

It is reported that this village had not anything like a normal outturn since 1917. Last year owing to insufficient rainfall Korra crop was entirely lost. The cotton and cholam crops also did not yield a good outturn. The outturn is estimated at 4 annas on the average. In the current year also the crops fared no better than those of the previous year.

Thimmalapur.-

The early rains during this and in previous year disappointed the ryots and the late rains in October and November were absolutely of no use to the drooping crops. Sajja crop was a total failure last year and the yield of cholam and korra was also poor. This year the outturn of crops is estimated at 4 annas.

Ballahunsi.-

Owing to the failure of timely rains last year the crops in many fields perished. The yield of the surviving crops could not but be poor. This year too the crops did not fare well and the outturn is estimated at 4 to 6 annas.

The Tahsildar and the Sub Collector, Hospet, recommend that one kist i.e. half the suspended amount may be collected this year along with the February kist and the collection of the other half may be postponed till the next fasli. I think that with the poor outturn (4 to 6 as) this year the ryots in these villages would be able to pay

just the current kists alone. Obviously anything of the suspended revenue cannot be collected this year without much hardship to the ryots.

In view of the doubtful crop history of these villages I would recommend that the suspended revenue may be entirely remitted so as to give the people a fresh start and the suspension of 50 per cent of the current kists to next fasli.
